

Ceramic Pendant Wide

Congrats on your new Ceramic Pendant!

We hope very much that you are going to be happy with your new Ceramic Pendant for many years to come. In the following pages you will find out how to assemble and look after your new home accessory.

Product Description

This simple pendant lamp allows you to illuminate directly or to an angle. Its shade, whilst circular at the base, is rectangular at the top and sits freely to the cord. This allows the shade to angle left, right and rotate completely around, changing its expression as you do so.

The pendant can be used as a single piece on the side of a bed, a sofa, in combination over a dining table or hanging freely in an entire room.

The pendant has been left unglazed, raw and been burnt at over 1100°C, creating a final surface that is matt and fine-textured. Since the shade is handmade, each lamp varies slightly in shape, size and colour, making each pendant lamp unique.

Assembly

Please see the following assembly instructions or find them at www.moebe.dk

Taking care of your new Ceramic Pendant

Dust with a soft, dry cloth. For deeper cleaning, wipe with a damp cloth and mild soap. Wipe off any liquid on the surface to prevent stains.

5 Year Warranty

We believe in what we do and in the quality of our products. That's why we give you a 5 year warranty. This guarantee covers any functional, material or manufacturing defect on any product you buy from us for private use.

Spare parts - Keep it going forever

All our products are component based and have been designed this way to make repairs simple. You can find and purchase all spare parts for your product on www.moebe.dk for a period of at least 5 years after your purchase. It should always be cheaper and easier to repair, than buying new.

Recycling

Whilst we hope that your MOEBE Ceramic Pendant will serve you well for many years to come, if you do at some point wish to recycle it then it is easy to do so. Simply split the product down into its separate parts and recycle them by material.

All parts can be recycled. How this is done depends on local regulations and facilities.
