DESCRIPTION	Faithfully developed from an original sketch by Louis Weisdorf, the Multi-Lite Wall Lamp brings a new dimension to one of the designer's most iconic collections. Retaining the signature dual-shade configuration, it introduces two additional movement axes: a 180-degree swing arm and a 90-degree rotating inner ring. Combined with the existing manual shade rotation, these elements allow for a wide range of sculptural configurations and directional lighting effects. Whether mounted in series, paired, or used as a stand-alone feature, the Multi-Lite Wall Lamp combines elegance, adaptability, and deep respect for Weisdorf's creative legacy.
